

Buckeye Building Awards Official Entry Rules

Entry is limited to BFBA Members. Any building erected by a BFBA Member builder that utilizes post-frame construction in a minimum of 50% of the building structure will be eligible for the award. This will be determined by the linear footage of the exterior walls that contain this method of construction. A post frame building is defined by its wide column spacing. Columns are typically buried in the ground, but can also be mounted on concrete. The side wall and end all columns are either solid (4x4 minimum) or three ply laminated with horizontal girts spanning between them to support the exterior siding or sheathing. Trusses are connected directly to each column or are mounted on headers spanning between columns.

There is NO registration fee for each entry, because this awards program has been generously sponsored by PLYCO! A separate entry form must be completed in its entirety for each entry.

- Incomplete entries will not be considered.
- To be eligible, buildings must have been completed during the current year
- Each entry must include documentary photos. These photos must include at least two views of the finished project as well as construction progress.
- Two 8x10 photos of the finished project must be submitted. These photos will be incorporated into the building award presentation.
- BFBA has the right to use the photos to promote the post frame industry.
- Each entry should include a floor plan of the building that consists of a line drawing of a single page not to exceed 17"x22" in size.
- Nominees will be notified in January and are expected to attend the 2012 Annual Meeting to accept their award
- Any member company or branch is eligible to win, but are limited to one award per company/branch in any outlined category.
- All decisions of the judges will be final. Additional awards of merit may be awarded in addition to the categories set forth in the entry form.

Buckeye Building Awards ENTRY FORM

Contact Name _____
Company _____
Address _____
City _____ State _____ Zip _____
Phone _____ Email _____

All submissions must meet the qualifications laid out in the rules and be complete to be considered.
